Baking Powder is absolutely pure. No other equals it, or approaches it in leavening strength, purity, or whole-someness. (See U. S. Gov't Reports.) No other is made from cream of tartar specially refined for it and chemically pure. No other makes such light, sweet, finely-flavored, and wholesome field. No other will maintain its strength without loss until used, or will make bread or cake that will keep fresh so long, or that can be eaten hot with impunity, even by dyspepties. No other is so economical.

If you want the Best Food, Royal Baking Powder is indispensable.
